Jos DevCon Details

Venue

The meetup will take place at No 5. Thomas Didel Drive, Off Liberty Boulevard, (Millionaires Quarter) behind Double Dollar.
There is ample free parking space.

The Agenda

I am fortunate to already have two guest speakers for the first Jos DevCon. They are willing and eager to share their knowledge with you. Including myself that would total three 15 minutes talks + 5 minutes QnA;

1. Introductions
2. **Building responsive layouts with CSS Grid and Flexbox** *by Jeremiah Akpera* - 20 mins
3. Open Mic 10 mins
4. **Hosting your Front end application online for free by** *Elaigwu Richmond* - 20 mins
5. Open Mic 10 mins
6. Coffee break
7. **Networking as a means of job and skills acquisition by** *Onaja* - 20 mins
8. Problem solving / Brainstorming Session 20 mins
9. Round up and leave

The open mic session is a vacant time where people can;
1. ask questions unrelated to the talks but concerning web development
2. share or propose projects
3. talk about ideas and
4. offer professional and/or technical advice.

There are two vacant slots for the open mic so I invite you to reach out to me if you have something to say during this chapter so I can slot you in.

Resources

I would be creating a Google Drive File for file sharing of resources on the talks given during the Meetup. Those that have registered and verified their email addresses will be able to access this Drive.
