Jos DevCon Details

The Agenda

I am fortunate to already have two guest speakers for the first Jos DevCon. They are willing and eager to share their knowledge with you. Including myself that would total three 15 minutes talks + 5 minutes QnA;

1. **Introductions**
2. *Talk by* Jeremiah Akpera - Full stack 20 mins
3. **Open Mic** 10 mins
4. **Coffee break**
5. **Talk by** Richmond - Front end 20 mins
6. **Open Mic** 10 mins
7. **Talk by** Onaja - Full stack 20 mins
8. **Fun & Games** 20 mins
9. **Round up and leave**

The open mic session is a vacant time where people can;

1. ask questions unrelated to the talks but concerning web development
2. share or propose projects
3. talk about ideas and
4. offer professional and/or technical advice.

There are two vacant slots for the open mic so I invite you to reach out to me if you have something to say during this chapter so I can slot you in.

Transportation & location

The meetup will take place at UTC Shopping Complex, No 10 Lugard road, Jos, Plateau at 10:30 AM. There should be ample free parking space outside. The size of the hall will limit the attendees to just 20 people. If we can hit this number I would consider it a great success and an indicator that we need to acquire a bigger space for the next Meetup

Resources

I would be adding a File sharing feature on the Jos DevCon site for the sharing of resources on the talks given during the Meetup. Those that have registered and verified their email addresses will then be able to access this feature.

Feedback

I would be adding a feedback feature on the web dev meetup where those with verified accounts can provide feedback on Meetups they have attended.
